No. 275.—The supply of water from the Guevery is irregular, and the delta is subject to great fluctuations depending on the position of the river and the velocities of the tides; the crops in the delta suffer in consequence and it has long been recommended that measures are required to mitigate the failure or shortage of supply at critical seasons. There are no storage works in the Malacca Peninsula on the Guevery or its distributaries and large quantities of water are consequently allowed to flow to the ocean nearly every year, much of which could be utilized with great advantage if the excess supply when the river is in flood could be stored for use during periods of low supply. The Guevery-Matir Project has been framed with this main object in view. The first is to provide an improved, controlled and steady supply of water to the land now irrigated in the delta and the second is to extend irrigation to an additional area of 521,000 acres. The Matir reservoir will also act as a flood-moderator and mitigate the effect of floods in the Guevery in the districts below the reservoir.

3 The Project involves—

(a) the construction of a large masonry dam across the Guevery at Matir to form a reservoir in which water which comes down the river in time of flood can be stored for use when required;

(b) the construction of a main irrigation canal which will divide branch canals leading from the Grand Aqueduct to the Truchampy district with a distributary system in the Truchampy district to the south of the Guevery and the Yauzer; and

(c) the improvement and extension of the existing Yauzer canal in the Guevery delta in Truchampy district.

On the 10th August 1904 the Legislative Council adopted a resolution approving the proposed to execute the project. The Council had then before it copies of the estimates amounting to

No. 275 (b) and a financial statement of the scheme. The financial statement included a statement that the gross annual income was expected to be Rs. 60,14,227 from the following sources:—

4 The estimates were subsequently revised in 1904 and revised to Rs. 737 lakhs and the total amount which may be required to capital including simple interest for ten years after the completion of the project is expected to be about Rs. 280 lakhs. In accordance with an undertaking given by the Hon'ble Sir Norman Macpherson at a meeting of the Legislative Council held on 17th March 1904, copies of the Revised Estimates and financial statement were supplied to the Members of the Legislative Council. The object has been raised in these proposals in the Legislative Council. The financial statement is then placed before the Members of the Legislative Council.

a. The increased profits which will accrue from system will lead to an amount of the reclassification of irrigation areas in the coming as well as the new date will be governed by the terms of the amendment notification. The amount to which the Government assumes the draft rules which the Government assumes in terms of the Irrigation Code Act, 1935, as amended, is intended to be in order to give effect to the other proposals involved in the last financial year of the following modifications:—

(a) no provision was made in the financial for a third crop; this amount has been supplied, the rate proposed in each case being, in accordance with the trend practice, the same as the charge for a second crop;

(b) no provision was made in the financial for the service of the pipe of water on any lands in the existing delta. This amount has been supplied;

(c) it is proposed not to levy any charge for water used merely to prepare land for irrigation. For instance no charge will be made for water used for making a material crop which is subsequently ploughed in;

(d) estimated rates as shown in the rules will be charged until 1944

e. These draft rules are published for general information and will be taken up for consideration after three months from the date of publication of this notification. Objections and suggestions relating to them should reach Government within that period. The rules will not be brought into force until a further proposal has been made with the construction of the Irrigation dam to provide the storage of water in the reservoir; it is not expected that the rules will be brought into force before 1945.

INSTRUCTIONS TO CANDIDATES APPEARING FOR THE
EXAMINATIONS TO BE HELD IN SEPTEMBER,
1931.

Candidates for University Examinations are required to observe the following instructions very carefully—

1. Entrance should be maintained in the examination room.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for despatching the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly

suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the same cover of each answer book. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to a paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an

hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. Candidates are forbidden to ask questions of any kind during the examinations. They are further forbidden to communicate with the examiners; should they do so their answers will not be marked and their conduct will be reported to the Syndicate for disciplinary action.

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, sheet, blotting pad, card board, manuscript, or paper of any description and from making use of any of these either introduced into the room by themselves or by any one else; from communicating with or copying from each other, and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be summarily sent out of the room forthwith, and his conduct will be reported to the Registrar. Such a candidate stands the risk of having all his answer papers for the examination for which he has appeared rejected by the Syndicate and of being delayed from sitting for the University examinations for each period as the Syndicate may decide. The use of students at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates in Mathematics, Physics, Chemistry and Geography of the Intermediate and Bachelors I and II of the B.A. Degree examinations.

9. Candidates for the B.A. Degree Examination should, if required, submit their laboratory note-books to the Examiners concerned on the first day of the practical examinations in Physics and Chemistry under group (A-A) and Physics under group (B). Candidates under group (A-B) must submit their laboratory note-books in Chemistry to the Examiners at the practical examinations. Each of the candidates sitting Botany as the main subject under group (B) must submit at the practical examinations his laboratory note-book and a collection of the named plants collected and preserved by himself. Candidates for the B.Sc. Degree examination should, if required, submit their laboratory note-books in Chemistry (subsidiary) at the practical examinations. The candidates should get back the laboratory note-books at the close of the examination.

10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink bottles. They must, however, use only black ink while answering their question papers.

11. Particular attention is requested to the instructions regarding rough working and loose sheets of paper pasted on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Paper must not be detached from the answer books of candidates. If the ordinary answer

books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. When candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period prescribed for each particular part of the examination, each should stand up in his place and remain standing until one of the superintendents has come up to him and has received his answer book from him.

13. Candidates sitting for the examinations at the different centres should apply to the Chief Superintendent of the respective centre for their hall tickets.

14. No college student will be allowed to admit a credit for his examination after that in which the college he studies is situated, except for satisfactory reasons and on the recommendation of the Principal of his college.

15. A candidate who undertakes his course of study in an affiliated college but appears for the examination a second or a subsequent time, having failed previously, should also admit the same course in which the college he studied is situated, except under extraordinary circumstances.

16. Candidates appearing at centres where they are not known must be prepared to satisfy the Chief Superintendents of such centres as to their identity. They shall also be required to place their signatures upon the identification certificate produced by them before the Chief Superintendents of the respective centres. GOVERNMENT SCHOOL OF COMMERCE, VIRAGAPATTAM.

PROVISIONS.

The School is mainly opened to two students in commercial subjects and the instruction imparted will be of the most practical kind.

Admission.—Students having a sufficient knowledge of English or those who have completed the fifth class exam will ordinarily be eligible for admission; but others may be admitted, if the authorities are satisfied that they would be benefited by the course of instruction imparted in the school. The teaching will be in English and a sound knowledge of the English language will be an advantage. Students possessing higher qualifications will be given preference.

Course of study.—The school will prepare students for the Government Technical Examination, Lower and Higher grades, in the following subjects:—

- (1) Book keeping.
- (2) Theory and Practice of Commerce.
- (3) Banking (including Coincidence).
- (4) Commercial Geography.
- (5) Handwriting.
- (6) Typewriting.

Course of study may be taken in one or more of the subjects mentioned above. The course in each subject will generally extend over two years, one year for each grade.

School hours, term and session.—The school hours are from 7.15 to 7.35 a.m. and from 4.30 to 7.30 p.m. The time table is so arranged as to enable a beginner to study all the subjects in one and the same year. Some of the classes are held both in the morning and in the evening.

The Typewriting class works from 7.15 to 10.15 a.m. and from 4.10 to 7.30 p.m. Students of the Typewriting class are divided into two classes, each student getting practice for a period of fifty minutes every day. The other classes are usually held from 7.15 to 9.15 a.m. and from 5 to 7.30 p.m.

There are two terms in each academic year; the long term from July to December and the short term from January to April. The summer holidays commence early in May after the Government Technical Examination in the various commercial subjects are over and extend up to the last week of June. The school will also be closed for Christmas holidays for about twelve days in December. There will also be the other holidays customarily allowed to Government Secondary Schools in addition to the gazetted and local holidays, if any. Students who wish to begin the study of commercial subjects will ordinarily be admitted in July every year.

Discipline.—Strict discipline as regards attendance and manner will be enforced. Library and other rules will have to be strictly complied with. Students will not be permitted to wear any ornaments for the public examination through the school unless their progress is satisfactory and three-fourths of the total attendance is kept.

Fees.—School fees shall be paid in advance at the beginning of each term. The following scale of fees will be levied:—

Long term. Short term.

	34	22.
For each subject except Typewriting—		
Lower grade	4	5
Higher grade	5	6

In addition to the ordinary fees, a special fee of eight annas per term for library and reading room

shall be paid in advance. Special fees may also be levied for other purposes as and when necessary with the previous approval of the Director. A deposit of Rs. 4 per student will be held as tuition money for using the reading library. The deposit will be returned when the student leaves the institution after settling all books, etc., which he has taken from the library and after deducting any amount which may be due from him.

Scholarships.—With a view to encouraging commercial education amongst people of backward communities, three scholarships in each of the Higher and Lower grades have been sanctioned by Government. Two scholarships in each grade are given to Orissa students and one in each to Madras students. The value of the scholarships is Rs. 3 for the higher and Rs. 4 for the Lower grade and they are payable for two months. Scholarships will be awarded to people who are most in need of aid and who take not less than five subjects for study.

The school will receive on the 25th July 1931 after the summer holidays. Intending students should apply for admission to the Headmaster in the prescribed form before that date. Printed copies of the application form may be had on application to the undersigned.

(1) The villages in the Agency limits specified in schedule I annexed.

(2) The rest of the Presidency with the exception of the Nilgiris district and the Mysore taluk, Arjuna, Tirupattur and the Attappadi valley of the Malabar district.

(3) The Bangalore State.

2. Taps-tapping licences shall be issued on the application:—

(a) if licensed toddy shop keepers in areas in which the toddy shops are said by section 12 of the said Act to be situated;

(b) of persons having the necessary privileges of caste and community and supply of coconut toddy vessels;

(c) of tappers on their own application in the South Kanara district, provided that the application for licence is accompanied by an application for a permit for the transport of the toddy drawn in such particular shop and that the latter application is accompanied or accompanied to be carried by the shopkeeper to whose shop the toddy is to be taken;

(d) of tree-tappers generally, and of wood-tappers in the villages of the Agency limits specified in schedule I, in the East Godavari district, in the West Godavari district and in the Bapatla and Rajahmundry taluks of the Coastal district, for not more than five trees in the case of tree-tappers and three trees in the case of wood-tappers for the drawing of toddy required for domestic consumption, but not for sale;

Transplantation District specified in Schedule II, for not more than five trees for each household for domestic consumption, but not for sale.

In cases (4), (5) and (6), the license may be issued in the name of the applicant himself or of his son-in-law, and in cases (4), (5), (6) and (7) in the name of the applicant only.

3. Persons wishing to apply for the grant of tree-tapping licenses must first pay the fees for the first installment thereof, or the same may be due on account of the term which they desire to tap, into a Government treasury, which may be either the District treasury or a Tribal treasury. District officers may also impose levies of villages to receive payments on account of tree-tax and to grant receipts therefor. In the case of persons mentioned in rule 3 (a) and (b) the tree tax must be paid into a Government treasury of the tribe in which the shop is situated or into authorized village treasury in the same tribe, and the receipt granted should state a declaration in the application to the effect that they have obtained a license pursuant to the provisions for a shop specifying also the name and number of the shop which was so to be marked. The shop license should be produced before village council in case where the application and fees are presented to them. District officers, when applying for trees in British territory, must pay the full tree-tax into a British treasury at the rates prevailing in British territory.

4. (1) Applications for the grant of tree tapping licenses must be made in the prescribed form to the Inspector, Native Department, in charge of the district in which the trees are situated. Forms may be obtained from the Inspector of the Native Department and from all Subdivisions and Deputy Subdivisions and will be supplied free of charge. Applications put in by shopkeepers and buyers need not be stamped; those put in by other persons must have a receipt for stamp of one shilling. In any case, if the fees have been paid into a treasury, the application must contain a certificate of payment from the treasury officer; if payment has been made at a village head, the receipt must accompany the application. Myones and shopkeepers applying for trees in British territory should pay the tree tax into the Myones and shopkeepers and should present before the British Subdivisions or Deputy Subdivisions concerned, along with the application in Form N.T. 3, the receipt with the Assistant's certificate at the foot to the effect that the applicant is a person entitled to take out a tree-tapping license in Myones. Applications from Myones residents for licenses for the tapping of trees in villages in the British territory in which there are trees belonging to Government should preferably be got counter-signed by the village headman, or the village in which the trees are situated on behalf of the secretaries of the tribes concerned the ownership of the trees. The tree-tax should be calculated at the higher rate if the rates are not the same on both sides of the frontier. The proceeds for the marking of trees in British territory for toddy shops in the Civil and Military Station, Singapore, will be similar to that held down for the marking of trees in British territory for Myones shops.

(2) Applications for tree-tapping licenses in the South Kanan district should be counter-signed by the estate or person in possession of the trees intended to be marked in token of his consent.

5. Toddy shopkeepers in areas adjoining the Myones territory will also be allowed to tap trees in Myones and the Civil and Military Station, Singapore, for the supply of toddy to their shops on payment of the whole of the tree tax in one installment into the British treasuries of the Native Government and subject to such restrictions regarding persons, as, as may be prescribed in this behalf. The

rate of tree-tax to be paid in such cases will invariably be the higher rate in force, if the rate is not the same on the two sides of the frontier.

The British and Myones Governments reserve to themselves the right to impose, in addition to the tree-tax, a rent for the use of trees belonging to them, the same when imposed being payable by British and Myones licensees alike. The arrangements agreed to by the Malacca and the Myones Governments with regard to the issue of licenses for tapping trees in either territory on the application of persons as shopkeepers in the other do not prevent the reservation of trees in any specified area in the Malacca Peninsula or in Myones with a view to afford such persons or for other sufficient reasons and the same payment of tree-tax into a British or Myones treasury does not entitle an applicant to tapping license for trees so reserved.

6. (1) Toddy shopkeepers in British territory adjoining the Portuguese State will be allowed to tap trees in the State on payment of tree-tax into the Malacca Sub Treasury, the same being the same as in the Malacca district. Toddy shopkeepers in Portuguese State will be allowed to tap trees in the adjoining British territory on payment of tree-tax in the treasury of the tribe in which the trees stand. Toddy shopkeepers in British territory adjoining the Portuguese State will be allowed to tap trees in that State on payment of tree-tax to that State at the higher of the rates prevailing on both sides of the frontier.

(2) Toddy shopkeepers in British territory adjoining Ceylon State may be allowed to tap trees in that State on payment of full tree-tax in that State at the higher of the rates prevailing on both sides of the frontier.

A Ceylon State notice applying for trees in British territory shall pay full tree-tax in Malacca at the higher of the rates prevailing on both sides of the frontier, into a British treasury, and present to the British Subdivisions or Deputy Subdivisions concerned an application which must be certified or counter-signed by the Ceylon Inspector of the divisions within whose jurisdiction the trees are situated. The British Ceylon Inspector to whom the application is forwarded shall have discretion to refuse to comply with an application either wholly or in part. The secretary of the divisions and permits issued by the Malacca Ceylon Inspector shall correspond with the permits for which licenses for tapping are granted under the tree tapping rules in force in the Ceylon State. The licenses and permits issued to the State must be by the British Inspector shall be liable to suspension or cancellation at the request of the Ceylon State Police officer.

7. Persons applying for the issue of licenses will be responsible to Government for all sums payable, as tree-tax on account of the trees intended to be tapped.

8. (1) Unless there are special reasons for refusing to mark the trees, the Inspector or assistant of an application will or cause the signs for the marking of the trees by an officer of rank not lower than a Sub-Inspector and for the issue of the license. The Inspector may also at his discretion refuse to comply with an application either wholly or in part, if he considers that the trees applied for are in excess of the legitimate demand of the shops. Applications for tree-tax shall pass on to the marking officer, when required by the holder to do so, the trees applied for by them. Should they fail to do so after reasonable notice, the fees paid by them shall be liable to be forfeited at the Collector's discretion.

(2) In the East Malacca district, in the West Malacca district, in the Malacca and Malacca States of the United States and in the villages of the Agency towns specified in Schedule I, trees intended

for the drawing of licensed toddy and those for the drawing of sweet toddy shall, as far as possible, be in separate tapes or blocks.
